Professional Summary

Aspiring and detail-oriented **Data Analyst** with hands-on experience in **Power BI, SQL**, and **Excel** for building dashboards, analyzing large datasets, and uncovering actionable insights. Proficient in using **data visualization techniques**, **query optimization**, and **trend analysis** to support strategic decision-making. Strong foundation in backend systems with knowledge of **Java, JDBC, REST APIs**, and manual testing. Eager to contribute analytical skills in a dynamic, data-driven organization focused on performance and innovation.

Technical Skills

- **Data Analytics & Visualization:** Power BI, DAX, Dashboards, Slicers, Charts, Conditional Formatting, Excel (VLOOKUP, Pivot Tables)
- **Databases & Query Languages**: SQL, MySQL, Joins, Subqueries, Aggregations, Normalization
- **Backend Technologies**: Java, JDBC, REST API (Basics), Hibernate
- **Data Tools & IDEs**: MySQL Workbench, SQL Developer, Power BI Desktop, Eclipse IDE, Edit Pluss
- **Testing & QA:** Manual Testing, STLC, Bug Reporting, Test Case Design
- **Other Skills**: Data Cleaning, Data Modeling, Object-Oriented Programming (OOP)
- **Soft Skills**: Analytical Thinking, Team Collaboration, Quick Learner, Problem Solving

Education

Bachelor of Engineering in Computer Science   *Ongole*

QIS College of Engineering.   *November 2020 – June 2024*
- CGPA: 7.95

Pre-University Course   *Giddalur*
Sahithi Junior College   *June 2018 – April 2020*
- Percentage: 65%

Secondary School Leaving Certificate (SSLC)   *Giddalur*
Surya Vidhya Nikethan School   *June 2017 – April 2018*
- Percentage: 90%

Project Experience

Project: Privacy-Preserving Medical Data Sharing Scheme Based on Blockchain

                                                                         October 2023 – April 2024

- Engineered a blockchain-based system to ensure secure and confidential sharing of medical data.
- Implemented cryptographic techniques and smart contracts to regulate access and maintain data integrity
- Enabled patients to control data access while ensuring transparency, security, and efficiency in healthcare data sharing.

Power BI Project – Uber Trip Analysis Dashboard   *March 2025 – May 2025*

- Designed and built a comprehensive Power BI dashboard to uncover insights from Uber trip data, focusing on booking trends, revenue generation, and trip efficiency.
- Implemented advanced features like dynamic measure selection, interactive slicers, tooltips, and conditional formatting for enhanced user experience.
- Conducted detailed location and vehicle-type analysis to support strategic planning and demand forecasting
- Delivered professional, user-friendly dashboard with bookmarks, dynamic titles, and export functionality to support data-driven decision-making.

Certifications & Training

- **Full Stack Java Development Training** – JSpiders
  Covered: Java, JDBC, Hibernate, Spring Boot, SQL, Web Development
- **Power BI Dashboard Design & Analytics** – Self-Initiated Project
  Designed dashboards with DAX, bookmarks, slicers, and dynamic visuals for business insights.
- **SQL for Data Analysis** – Udemy
  Focused on complex queries, joins, subqueries, aggregate functions, and performance tuning.
- **Excel for Data Analysis** – Udemy
  Advanced Excel skills: Pivot Tables, VLOOKUP, conditional formatting, and charting.
- **Manual Testing & QA Fundamentals** – JSpiders
  STLC, SDLC, Test Case Design, Bug Reporting, RTM, and Functional Testing.
- **Postman – API Testing Essentials** (JSpiders)
  Hands-on practice with REST API requests, response validation, and status codes

Hobbies

- Playing Badminton
- Traveling and Exploring New Places

Strengths

- Fast Learner & Adaptable
- Positive Attitude
- Creative Thinking

Declaration

I hereby declare that all the information furnished above is true to the best of my knowledge.
